Customer Funnal Chart

Total_Shoppers, Repeat_Buyers and Subscribers

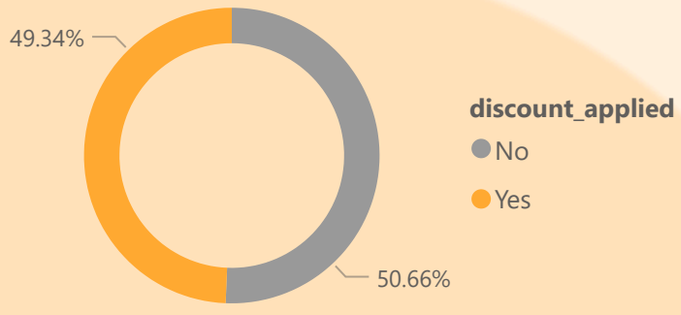

This funnel chart shows that while an incredible **97.9% of customers return to shop again**, the business suffers a massive **72.4% loyalty drop-off** because half of the entire database (1,962 loyal shoppers) have not been converted into paid subscribers yet.

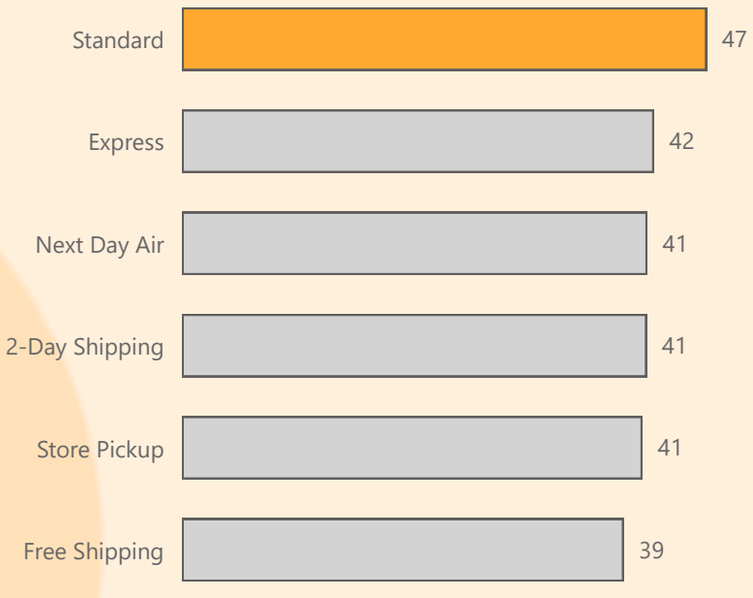

Customer Satisfaction

How Satisfied are customers when the discount is Applied?

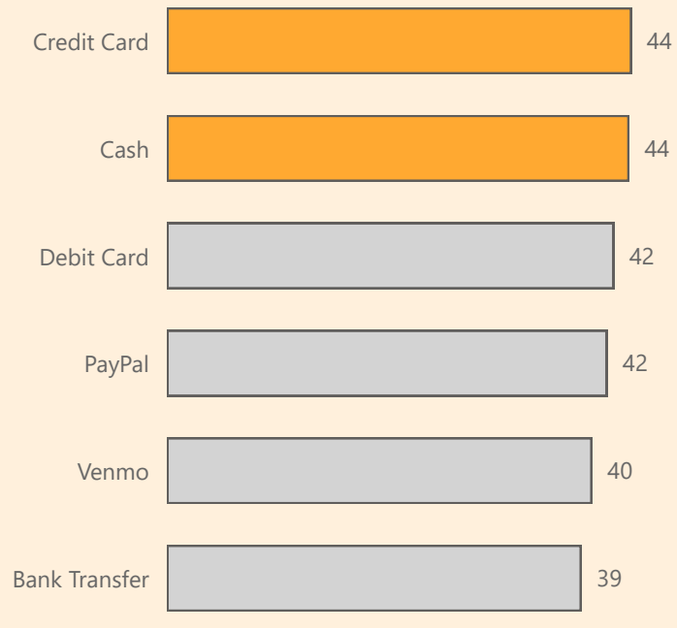

Stop offering discount promotions across the board because customer satisfaction actually drops when they are applied (No Discount: 42.38 CSAT vs. Discount: 41.26 CSAT).

Fulfillment Experience Matrix

Investigate and fix the delivery logistics behind Free Shipping since it holds the absolute lowest customer satisfaction score (39 CSAT).

How Satisfied are customers by the billing mode

Prioritize website and checkout experience improvements for Credit Card and Cash transactions, as they maintain the highest satisfaction levels (44 CSAT each).
